### Our Service

MACH makes it EASY to add Fully Managed Failover Solutions to your portfolio.

#### Business Continuity

The loss of network connectivity likely means lost transactions, revenue, data, and calls.

*Do you have a backup plan?*

#### Customer Satisfaction

The loss of connectivity hurts customer interaction, satisfaction, and confidence in your business.

*Why risk your most important assets?*

#### Protect Your Business

Your business never stops running, and neither should your network. Make sure you have a backup plan for connectivity and maintain peace of mind.

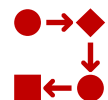

#### Enterprise Class Solutions

Includes 1GB pooled plan and a Cradlepoint enterprise-class router that is fulfilled, monitored, managed, and supported by MACH Networks.

## 4G

#### Service on Multiple Carriers

Coverage from the nation's top three carriers ensures we can provide service on the best available network for each end customer location.

#### Seamless Failover

No user intervention required. With auto-failover and auto-failback stakeholders rarely even notice the disruption. Business is back on track!
