

Solutions-as-a-Service for POTS Replacement

POTS Replacement Solutions For Analog Voice, Fax, Alarm Panels, and Elevators

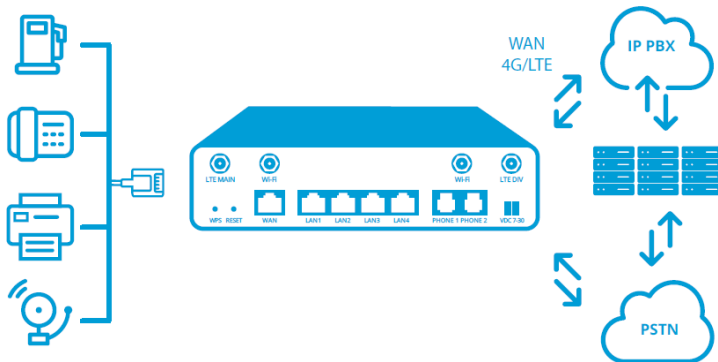

Last Mile PSTN Replacement for SMBs and Distributed Enterprises.

Businesses need to stay connected and able to communicate and respond to their customers as quickly as possible. However, traditional analog connections are expensive, slow, and outdated.

MACH Network provides best-in-class POTS Replacement solutions that reduce costs and improve network performance for voice services. Our 4G LTE POTS Replacement solutions enable analog voice services that are currently connected to the Public Switched Telephone Network (PSTN), to be carried over AT&T's 4G LTE Cellular Data Network, replacing wireline Plain Old Telephone Service (POTS) lines for the transmission of voice, FAX, alarm, analog data, ring-down, emergency lines and full access to E-911.

Our fully managed 4G LTE POTS Replacement solutions help ensure your business stays connected, protecting your business, your customers, and your bottom line.

Only **\$59*** per month
SKU: BOC5GB-36
